PROFILE

Senior Java Developer with **9+ years** of experience designing, developing, and deploying **scalable enterprise applications** using **Java**, **Spring Boot**, **Microservices**, and **PL/SQL**. Expertise in **API development**, **cloud-native architectures**, **messaging systems**, and **DevOps automation**. Skilled in building secure, resilient solutions with a strong focus on **API security**, **authentication**, and **authorization**. Proven track record in **Agile/Scrum** environments—leading teams, mentoring developers, and delivering complex projects on time. Onsite client engagement experience in the **UK** for delivery and technical leadership.

TECHNICAL SKILLS

Programming Languages: Java, C-Language
Frameworks & Libraries: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Spring Cloud,Hibernate
Architecture & Patterns: System Design, Microservices, REST API, Event-Driven Architecture
Messaging & Streaming: Apache Kafka
Databases: Oracle(SQL, PL/SQL), MySql, H2
DevOps: Jenkins, Git, Docker, Ansible
CS Fundamentals: Data Structures & Algorithms (DSA)
Generative AI Tools: GitHub Copilot, ChatGPT

PROFESSIONAL EXPERIENCE

Citicorp Services India Pvt Ltd   *Nov 2023 – Present*
Apps Dev Intermediate Programmer Analyst
- Built **microservices-based** enterprise applications using Java 8, Spring Boot and JPA.
- Developed high-performance APIs and optimized PL/SQL queries, cutting DB latency by 25%.
- Mentored junior developers and conducted code reviews ensuring adherence to development best practices.

Infosys Ltd   *Oct 2018 – Nov 2023*
Technology Lead
- Led product development for **cloud-native** projects using Java, Spring Boot, Microservices and JPA.
- Implemented JWT-based authentication to secure REST APIs in microservices communication.
- Built event-driven systems leveraging Apache Kafka for real-time data streaming and microservices communication.
- Build CI/CD pipelines with Jenkins and Git, Containerized services using Docker.
- Managed UK onsite client engagement, stakeholder collaboration, demos, and feature delivery.

Bharati Robotic Systems India Ltd   *Jan 2018 – Oct 2018*
Software Developer
- Owned end-to-end feature from requirement gathering and design to development and deployment web application.
- Implemented database schemas and optimized queries.
- Adapted quickly to fast-paced environment,balancing multiple responsibilities with high ownership.

Amdocs Ltd   *Feb 2016 – Sept 2017*
Software Developer
- Built and maintained backend telecom solutions, optimizing SQL queries and reducing API response times.

EDUCATION

PG Diploma in Advanced Computing (CDAC ACTS, Pune)
B.Tech in Electronics & Communication (Poornima College of Engineering, Jaipur)

CERTIFICATIONS & TRAININGS

Internal certifications in Java, Spring Boot, Microservices (Infosys) | Project Management Fundamentals (IIL) | Business English Level 6 (Learnship) | Coding Certifications

ACHIEVEMENTS

Onsite client engagement in the UK for 1 year | Multiple Infosys awards for delivery excellence | Recognized as Academic Mentor(C-Language) at Poornima College.
